A PERFECT MATCH WITH ARCHITECTURAL ASPIRATION

- Quartz Stones Thickness

20 mm | 30 mm

- Jumbo Size

3250 X 1650 mm | 325 X 165 cm

- Super Jumbo Size

3300 X 2000 mm | 330 X 200 cm

Quartz is an engineered stone, designed and crafted in a way that the rich glory of traditional stone and contemporary style of today's time, it is a perfect fit for kitchen counter top, bathroom sink, vanity top, window sills, wall interior, wall cabinets and bathroom flooring with different sizes in 20 mm and 30 mm.

Quartz designs and pattern can be customised which makes it unique for a glorified kitchen by interiors and architectures.

Neotek is a known brand, which has supplied and fulfilled the demand of beautiful kitchen countertops by their craftsmanship and expertise team.

KITCHEN COUNTERTOPS & ISLAND TOP

Engineering stone has given a classic and trendy look to counter top, and the quartz tiles gives rich and luxurious look to countertop of homemaker.

QUARTZ APPLICATIONS

WORK DESK & RECEPTION DESK

Engineering stone has the property of stain resistant, water resistant, scratch resistant which gives it a long life and the glow on surface makes it the best choice for reception desk, table top and work desk for users.

STAIR STEP & RISER

These Engineering Stones are perfectly suitable to be applied on the staircase as they are resistant to heavy wear and tear. Their durability avoids the edges of the stairs from getting cracked or chipped.

TABLE TOP & FURNITURE

When designing an urban space, the Engineering Stones become the perfect choice for tabletops and furniture as they give it a clean and elegant look with comfortable functionality.

WINDOWS & DOOR SILLS

The sturdiness of Engineering Stone support the structure of windows sills and door frame and its aesthetic looks gives décor to the space.

INDOOR PUBLIC AREAS

Engineering Stone create a spacious look with their grand size and decreased grout lines in heavy traffic areas like airports, malls, etc. Their durability adds to the functionality of such areas.

QUARTZ EASY TO CARE

EASY TO CLEAN

Quartz Stones are easy to clean.

SILKEN WHITE SERIES

■ ■ PURE WHITE

■ ■ SNOW WHITE

■ ■ CRYSTAL WHITE

■ ■ MAPLE WHITE

CARE

- ° Like all fine materials, NEOTEK Quartz responds best when handled with due care and attention. Remember, it is always easier to wipe up a spill than it is to handle a dried-on stain. Just wipe away any spilled food before it turns into a permanent stain.
- ° Remember that detergents containing bleach and hard scouring granules may harm surfaces over time. Therefore, pay due attention in your detergent selection by never using cleaning products that contain soft or hard scouring granules such as Vim Scouring Powder or Cif Cream.
- ° Products with pH close to neutral or with reduced pH effect (general cleaning products which may be commercially available on shelves) may be used at all times. However, prolonged contact with decalcifiers and products containing decalcifying agents as well as oil solvents and products containing oil solvents must be avoided.
- ° Gently scrape away with a plastic spatula on any spills of paint, nail enamel, chewing gum, mustard and grease that become hard to remove when dried. Then cleanse the surface with water.
- ° Quartz, being one of the hardest minerals on earth, offers NEOTEK Quartz an unparalleled strength and durability that prevent easy scratching and damage. Still, as with any surface, NEOTEK Quartz can be permanently damaged by exposure to strong forces that undermine its physical properties. In order for your countertop to maintain its good looks for many years, always use a bread/chopping board and a table mat (trivet).

Slab Specifications

PROPERTY	RESULTS	METHOD
Water Absorption	<0.05%	ASTM C97-09
MOH's Hardness	6.5-7	moh's hardness scale
Thermal Shock	No Damage Passed 5 cycles	ASTM C484
Compressive Strength	24000 psi	ASTM C170
Flexural Strength	8500-9000 psi	ASTM C880
Moisture Absorption	negligible	ASTM C97
Abrasion Resistance	89-190 mm ³	ASTM C1253
Density	24 g/cm ³	ASTM C373
Cigarette test	unaffected	ANSI Z124.6
Stain Resistance	unaffected	ANSI Z124.6
Bond Strength	205 ppsi	ASTM C482
Wear Resistance	unaffected	ANSI Z124.6
Thermal Expansion	1.2x10 ⁻⁵ inch/f	ASTM C531
Chemical Resistance	unaffected	ASTM C650
De-icing Resistance	unaffected	ASTM C672
Freeze-thaw resistance	No Damage Passed 15 cycles	ASTM C1026
Surface Burning Characteristics	17 (class A/1 rating)	ASTM E84

General Instructions

Do not install Quartz Stones at outdoors, exteriors or in areas having direct natural UV / Sun light.

Do not apply Water repellents or sealants to bring out the lusters

Do not use any chlorine-based products on quartz surfaces

We should bring in an environmental attitude,
and Luxury should automatically
be about sustainability and quality. – Jochen Zeitz

QUARTZ Quality Assurance

Each award recognizes our Team Sprit & Endeavors in making sure that our each Family member (Clients, Suppliers & Vendors) celebrate High Ratings at Happiness Index.

Since Rocks Forever Inception in Year 2006 we are getting Export Award very regularly from Indian Government. A warm gratitude to our each Family Member for making it happen & keep supporting us always.
